Commentary

A mostly short market throughout the day. Interconnector Trades overnight to the early morning were required for Downward Regulation, and during the late afternoon for Margin. 60MW of STOR was run over the evening Darkness Peak. Trades and BM Action supported overnight Voltage Control. BM Action overnight for System Inertia. Trades alleviated localised thermal export constraints in Scotland all day. BM Action managed thermal export constraints in Scotland and the North of England from the start of the day until the late evening.
