BM Cost (Indicative)

AS Cost (Estimate)

Commentary

A short market from morning to just after midday, and from late evening onwards into the night. 500MW of Non-BM Fast Reserve was run over the morning period, and 250MW over the late evening. Interconnector Trades required for Downward Regulation overnight to 7am. Trades and BM Action supported overnight Voltage Control. Trades and BM action overnight for RoCoF, with Trades also required during the day. BM Action alleviated thermal export constraints in the North of Scotland from evening onwards, and in the Wales area during the day.
