### Commentary

A short market overnight till the late morning, and short between the late afternoon and evening. 460MW of Non-BM Fast Reserve was run over the late afternoon and 140MW around the late evening. Interconnector Trades were required for Downward Regulation overnight to 7am. Trades and BM Action supported overnight Voltage Control. Trades throughout the day and BM Action overnight for RoCoF. BM Action alleviated thermal export constraints in Scotland from 9am onwards during the day and into the night.
