

# Agenda

**Date:** 1 November 2023      **Location:** Digital only meeting

**Start:** 09:00                      **End:** 11:00

## Agenda for Grid Code Development Forum (GCDF)

Topics to be discussed	Owner
1. Introductions and review of previous actions	Terry Baldwin, NGESO
<b>GCDF</b>	
2. <b>Presentation: EDT Data Submission – Contingency Trial with SSE</b> A presentation will be shared in relation to a trial that the ESO is currently undertaking with SSE to establish a contingency process for EDT data submission.	Stuart Brace, NGESO
3. <b>Verbal Update: Digitalised Whole System Technical Code – ASR Workstream</b> An update will be provided following the submission of the Grid Code Modification (GC0164), which proposes the simplification of Operating Code No.2, and a discussion will be invited in relation to the possible next sections of the Grid Code that could benefit from simplification. <b>A survey in relation to possible future sections of the Grid Code which could benefit from simplification can be found <a href="#">here</a> and we encourage you to complete in advance of the GCDF.</b>	Frank Kasibante, NGESO
4. <b>Presentation: Proposed changes to the Grid Code in the treatment of Embedded Small Power Stations with a Bilateral Embedded Generation Agreement (BEGA)</b> A presentation will be shared detailing proposed changes to the Grid Code in respect of the compliance process for Embedded Small Power Stations with a Bilateral Embedded Generation Agreement (BEGA)	Tanmay Kadam, NGESO
5. <b>AOB and Meeting Close</b>
