182	27 January 2023	11768	Code Admin	Consumer Scotland has inherited some of the statutory powers of Citizens Advice Scotland. Review the wording in the CUSC and bring forward modifications (if required) to reflect this change.	Code Admin have a house keeping review in early 2024 - if changes are required for efficiency, they will be included in a wider non-Section 14 minor legal text housekeeping modification.	23/02/24	Ongoing

### Closed Actions - from last Panel Meeting

Action Number	CUSC Panel Action Raised	Minute Ref	Owner	Action	Current position	Due by
187	28 July 2023	11951	GG & CH	Discuss whether there is enough material for the CMP304 workgroup to reconvene	Proposer to review availability and confirm whether they would like to progress	25/08/2023
189	24 November 2023	12226	CG	Confirmation on if a further CUSC modification is needed to introduce transmission import capacity.	If transmission import capacity is required/would be used (outside the scope of what is being look at via CMP417) then another mod is likely to be required (to look at definition of TIC and how it is applied). With regards to connections reform, as and when the ESO come to implement that aspect (which is non-MVP) they expect that there will be a need for some sort of code change. The ESO are yet to look at the detail of what that will look like, and it may in part depend on the outcome of the code change seeking to move demand from final sums to user commitment methodology.	15/12/2023
190	24 November 2023	12241	CG	Confirm if the Connection Action Plan and Transmission Acceleration Plan would be included in the FSO changes or will another modification to required.	This programme of work will not be included in the FSO changes. The FSO modifications are strictly focussed on what is required to establish the FSO on day 1 and to ensure a smooth transition. The modification changes will be driven by the licence changes.	15/12/2023
