## TNUoS Tariff Forecast Timetable for 2025/26 Tariffs

Dear Industry Colleagues,

This letter concerns the timetable for our forecasts of 2025/26 electricity Transmission Network Use of System (TNUoS) tariffs over the coming year. We have reviewed when the quarterly forecasts are currently published, based on customer feedback and the dates on which we receive key data that can have a material impact on tariffs.

We have finalised the timetable for 2025/26 tariff forecasts publications as below.

By 30 <sup>th</sup> April 2024	Five Year view of 2025/26 to 2029/30 TNUoS tariffs (including the initial forecast of 2025/26 TNUoS tariffs)
By 31 <sup>st</sup> July 2024	Updated forecast of 2025/26 TNUoS tariffs
By 30 <sup>th</sup> November 2024	Draft 2025/26 TNUoS tariffs
By 31 <sup>st</sup> January 2025	Final 2025/26 TNUoS tariffs

These dates may vary if unforeseen circumstances require it, but we will still aim to provide at least three forecasts before the Final tariffs are published in January 2025. All forecasts will be published on the TNUoS tariffs forecast section of our website: [www.nationalgrideso.com/tnuos](http://www.nationalgrideso.com/tnuos)

We will continue to engage with you on the analysis that we can provide in our forecasts, in addition to any changes to this timetable (if any are required), via the Transmission Charging Methodology Forum (TCMF)<sup>1</sup>.

If you have any queries, please contact us at [TNUoS.Queries@nationalgrideso.com](mailto:TNUoS.Queries@nationalgrideso.com).

Yours faithfully

**Nick Everitt**
