

Agenda

Date: 7 February 2024 **Location:** Digital only meeting

Start: 09:00 **End:** 11:00

Agenda for Grid Code Development Forum (GCDF)

Topics to be discussed	Owner
1. Introductions and review of previous actions	Terry Baldwin, NGESO
GCDF	
2. Presentation: Guidance Notes for System Oscillation Assessment of Inverter Based Resources (IBRs) A presentation will be given on the guidance notes prepared by the Electricity System Operator (ESO) to describe to Users on how to demonstrate the appropriate damping performance of Inverter Based Resources (IBRs) against potential system oscillations. These Guidance Notes specify a set of small signal studies which should be carried out by Users as part of the connection compliance process to ensure the safe operation and stability of the transmission system. The prospective Users connecting directly to the National Electricity Transmission System are required to be compliant with the Grid Code and requirements set out in Bilateral Agreement documents. These Guidance Notes are prepared, solely, for the assistance of users to demonstrate the compliance.	Xiaoyao Zhou / Aleem Abid, NGESO
3. AOB and Meeting Close
