

# STC Special Panel

Friday 15 March 2024

Online Meeting via Teams

# WELCOME

# Workgroup Report

**CM094: Amendment to Bi-annual estimate provisions**

Milly Lewis

# Solutions and Workgroup Vote

## **Solution:**

- Where the Authority has approved the need for strategic Transmission Reinforcement Works via the price control framework, then Customers should no longer securitise for those specific works. Customers securities would only be released post the reinforcement needs case being approved by the Authority. Customers will continue to secure up to this point and will still be required to securitise against any connection assets, sole use works, any shared Enabling Works, as well as any wider work securities that are not approved by the Authority.

## **Summary of Workgroup Vote:**

- The Workgroup concluded unanimously that the Original better facilitated the Applicable Objectives than the Baseline.

# Terms of Reference

The Workgroup conclude that they have met their Terms of Reference and the references can be located below:

Workgroup Term of Reference	Location in Workgroup Report
a) Implementation	'Obligations and timescales after receipt of the Construction Approval' within <b>Workgroup Considerations</b> and <b>Annex 1: Legal Text</b>
b) Review and support the legal text drafting;	<b>Annex 1: Legal Text</b>
c) Ensure the appropriate Industry experts or stakeholders are engaged in the Workgroup to ensure that all potentially affected stakeholders have the opportunity to be represented in the Workgroup	'Interactions Ongoing Connection Reform with Other Modifications' and 'Workgroup Consultation Summary' within <b>Workgroup Considerations</b> and 'Workgroup Consultation Responses' within <b>Annex 5: Workgroup Consultation Responses and Summary Spreadsheet</b>
d) The cross Code impacts this Modification has, in particular the <a href="#">CMP417: Extending principles of CUSC Section 15 to all Users</a> and <a href="#">CMP428: User Commitment liabilities for Onshore Transmission circuits in the Holistic Network Design</a>	'Interactions Ongoing Connection Reform with Other Modifications' and 'Interaction with the CUSC Methodologies' sections within <b>Workgroup Consideration</b>
