2	Do you support the proposed implementation approach?	<p><input checked="" type="checkbox"/>Yes <input type="checkbox"/>No</p> <p>Agree with Proposer – except for an additional consideration for Fixed Attributable liability customers – see next question.</p>
3	Do you have any other comments?	<p>Customers who entered “Fixed” Attributable liabilities agreement with ESO should not be unduly penalised if this Modification is implemented. Following the proposer’s logic, “Fixed” Attributable customers could be heavily over-securitising. We suggest a one-off update of relevant Fixed Attributable calculations, implemented for the security period immediately after CM094 implementation.</p> <p>I believe that such a one-off recalculation is within ESO’s existing powers, without needing a formal alternative to this CM; we would invite the WG to consider this.</p>
