What is the issue?

Following the implementation of STCP Modification PM0135, some minor housekeeping changes were identified which should have originally been implemented as part of the modification.

Why change?

The modification will ensure STCP19-3 reflects all of the proposed changes that should have been implemented as part of PM0135.

What is the proposer’s solution?

STCP19-3 will be updated to include the minor housekeeping changes which were missing from the original implementation of PM0135.

Legal text

Final Legal Text can be found in Annex 1

What is the impact of this change?

Proposer’s assessment against STC Objectives	
Relevant Objective	Identified impact
(a) efficient discharge of the obligations imposed upon transmission licensees by transmission licences and the Act	Neutral
(b) development, maintenance and operation of an efficient, economical and coordinated system of electricity transmission	Neutral
(c) facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the distribution of electricity	Neutral
(d) protection of the security and quality of supply and safe operation of the national electricity transmission system insofar as it relates to interactions between transmission licensees	Neutral
(e) promotion of good industry practice and efficiency in the implementation and administration of the arrangements described in the STC	Positive The housekeeping changes will ensure the STCP reflects all of the changes that should have been implemented as part of a previous modification.
(f) facilitation of access to the national electricity transmission system for generation not yet connected to the national electricity transmission system or distribution system;	Neutral

(g) compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency.	Neutral
--	----------------

Proposer’s assessment against the STCP change requirements ¹	Proposer’s assessment
(a) the amendment or addition does not impair, frustrate or invalidate the provisions of the Code	Requirement met
(b) the amendment or addition does not impose new obligations or liabilities or restrictions of a material nature on Relevant Parties which are not subsidiary to the rights and obligations of the Relevant Parties under the Code	Requirement met
(c) the amendment or addition is not inconsistent or in conflict with the Code, Transmission Licence Conditions or other relevant statutory requirements	Requirement met
(d) the Relevant Party Representatives deem that the amendment or addition is appropriate to support compliance with the Code	Requirement met

When will this change take place?

Implementation date
13 June 2024

Implementation approach
No changes to systems or processes are required as a result of this modification.

Interactions

- Grid Code BSC CUSC SQSS
- European Network Codes Other modifications

The implementation of this change will have no interaction with any other codes.

¹ STCP changes may only be made if they meet the requirements in Section B, 7.3.2

Acronyms, key terms and reference material

Acronym / key term	Meaning
BSC	Balancing and Settlement Code
PM	Procedure Modification
CUSC	Connection and Use of System Code
STC	System Operator Transmission Owner Code
STCP	System Operator Transmission Owner Code Procedure
