For reference the Applicable Grid Code Objectives are:

- a) To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity
- b) Facilitating effective competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);

- c) *Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole;*
- d) *To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and*
- e) *To promote efficiency in the implementation and administration of the Grid Code arrangements*

Please express your views in the right-hand side of the table below, including your rationale.

Standard Code Administrator Consultation questions								
1	Please provide your assessment for the proposed solution against the Applicable Objectives?	<p>Mark the Objectives which you believe the proposed solution better facilitates:</p> <table border="1"> <tr> <td>Original</td> <td><input checked="" type="checkbox"/>A</td> <td><input checked="" type="checkbox"/>B</td> <td><input checked="" type="checkbox"/>C</td> <td><input type="checkbox"/>D</td> <td><input checked="" type="checkbox"/>E</td> </tr> </table> <p>We believe that the proposed solution will improve the clarity and transparency of the compliance process for Embedded Small Power Stations with a Bilateral Agreement. In particular this will reduce duplication of compliance activities (currently undertaken by the ESO in respect of the Grid Code and DNO in respect of the compliance activities undertaken through G99), and increase the speed under which Generators in respect of Embedded Small Power Stations can complete the Compliance Process.</p>	Original	<input checked="" type="checkbox"/> A	<input checked="" type="checkbox"/> B	<input checked="" type="checkbox"/> C	<input type="checkbox"/> D	<input checked="" type="checkbox"/> E
