18 November 2016

Consultation on Day Ahead and Intraday Proposals for arrangements concerning more than one Nominated Electricity Market Operator (NEMO) in the GB bidding zone

Dear Industry Colleague and/or Market Party,

In accordance with the requirements of Article 45 and 57 of Regulation (EC) 2015/1222 on Capacity Allocation and Congestion Management (the “CACM Regulation”), common Proposals were developed by National Grid Interconnectors Limited, BritNed Development Limited, EirGrid Interconnector Limited and Moyle Interconnector Limited (collectively, “the TSOs”) in cooperation with the NEMOs in the GB bidding zone regarding cross-zonal capacity allocation and other necessary arrangements in bidding zones where more than one NEMO is designated and/or offers trading services, and were submitted to the National Regulatory Authority (the “Authority”) for approval on 11 April 2016. On 10 October 2016 the Authority requested that the Proposals be amended by the TSOs and resubmitted by 10 December 2016, in tandem with which (as part of this amendment phase) a stakeholder consultation is being conducted by the TSOs.

Accordingly, the consultation will be launched on 18 November 2016 and remain open for responses until Monday 28 November 2016. Please refer to the suite of documents which can be accessed via the following [link](#). Please note that responses will be gratefully received by 28 November 2016 and should be sent by e-mail to gareth.pearce@nationalgrid.com. Please quote “CACM 45/57 Consultation” in the subject line. It is kindly requested that responses are written in English.

Unless respondents request that their response remains confidential, responses may be made public. Respondents should clearly mark any part of their response (or the whole response), which is to remain confidential.

When responding, please state whether you are responding as an individual or representing the views of an organisation. If responding on behalf of an organisation, please state which organisation and, where applicable, how the views of the members were collated.

Subject to the above confidentiality point, following receipt of responses the TSOs will prepare a summary of the responses received and publish this via an update on the website. A revised (as necessary) version of the Proposals will then be resubmitted by the required date to the Authority for approval.

For and on Behalf of,

**National Grid Interconnectors Limited
BritNed Development Limited**

**EirGrid Interconnector Limited
Moyle Interconnector Limited**
