

# Daily Balancing Costs

Date: **Sunday 22 Sep 2024**  
**BSUoS Final Tariff: £7.63/MWh**  
**Total Outturn: £2.72m**

BM Cost (Indicative)  
 AS Cost (Estimate)

**Commentary**  
 The market alternated between long and short during morning and was predominantly short for the rest of the day except 20:30-21:00. No Trades were required for Downward Regulation and Margin. BM Actions helped manage thermal constraints in England during morning and in South England throughout the day. Trades and BM Actions also supported Voltage Control.

Please note that some figures from Settlement Period 29 and 45 are not included for this date due to a database load error.
