Grid Code Development Forum – 6 November 2024

Date: 06/11/2024 **Location:** MS Teams

Start: 09:00 **End:** 11:00

Agenda for Grid Code Development Forum (GCDF)

Topics to be discussed	Owner
1. Introductions and review of previous actions	Claire Newton, NGENSO
GCDF	
2. Presentation: Introduction of a new industry protocol in Operating Code 6 of the Grid Code A presentation will be shared in relation to proposed Grid Code modification that will seek to establish a Demand Control Rotation protocol within Operating Code 6 of the Grid Code following on from the approved GC0161 & GC0166 modifications.	Rebecca Scott / John Zammit-Haber NESO
3. Presentation: Introduction of contacts for Network Access Planning into the Compliance Process and Compliance Repeat Plan A presentation will be shared in relation to proposed Grid Code changes that will require Users to provide planning contacts prior to a Final Operational Notification being issued and again via the Compliance Repeat Plan.	Rhiannon Whitty, NESO
4. Presentation: Analysis of system incidents and losses of load or generation on transmission and/or distribution networks throughout the GB power system. A presentation will be shared providing analysis of system incidents and losses of load or generation on transmission and/or distribution networks throughout the GB power system utilizing the data provided as part of approved Grid Code proposals, GC0105 & GC0151. The proposer will recommend possible future changes to the Grid Code to enhance the effectiveness of the data that is currently produced in relation to incident reporting.	Sabiha Farzana, Statkraft
5. AOB and Meeting Close
