Code Administrator Meeting

Summary

Meeting name: GC0166 Workgroup Meeting 9

Date: 22/10/24

Contact Details

Chair: Milly Lewis (NESO) milly.lewis@nationalgrideso.com

Proposer: Steve Baker (NESO) stephen.baker@nationalgrideso.com

Key areas of discussion

- The Chair provided an overview of the timeline and objectives. It was agreed to make final amendments to the workgroup consultation documentation before its publication for the industry. This step ensures that the documentation accurately reflects the Workgroup's discussions.
- During the Workgroup meeting, a member raised a query regarding the terms used in the BSC (Balancing and Settlement Code) related to MDO/MDB. They suggested using the term "Bid Offer Acceptance" instead of "Offer" as it is a defined term in the Grid Code. The discussion revolved around the importance of defining terms consistently in either the Grid Code or BSC to minimize the potential for future divergence and confusion.

Review Actions Log

The Chair led a review of the action log, with the Workgroup agreeing to close actions 23,28,29. New actions were raised:

- Action 30: NESO Legal to review MDO/MDB definition
- Action 31: Workgroup to review, comment on Workgroup Consultation and Legal text then contact the Proposer/ SME

Next Steps

- Request that feedback be provided by Tuesday 05 November, to allow sufficient time for review and incorporation of any necessary changes.

Public

- A Workgroup session is potentially scheduled for Tuesday 12 November, specifically to address the feedback received and focus on implementing the required changes.

Actions

Action Number	Workgroup	Owner	Action	Due by	Status
23	WG6	BD	Confirm Future IT system capabilities	WG9	Closed
