Code Administrator Meeting Summary

Meeting name: GC0174 Workgroup Meeting 1

Date: 08/11/24

Contact Details

Chair: Prisca.evans@nationalenergyso.com

Proposer: David.halford@nationalenergyso.com / Frank.kasibantel@nationalenergyso.com

Key areas of discussion

The Chair confirmed the aim of Workgroup meeting 1 was to discuss the modification process, Workgroup responsibilities, agree timeline, agree Terms of Reference, and review the proposed solution.

Code Modification Process Overview

The Chair outlined the Code Modification Process and defined the role and expectations of a Workgroup Member. Also confirming that this was a Limited Membership Workgroup.

Proposer Presentation

The Proposer summarised that GC0174 has been raised following the approval of BSC Modification CP1583 (Rationalising publication of European Transparency Regulation data on Elexon Systems), the obligation for parties to submit EU Transparency Availability Data as specified in OC2.4.7 is no longer required.

The Proposer also sought a legal view on the proposed changes and provided the Workgroup with a summary of this. It was highlighted by Workgroup members that whilst having this legal view was helpful for the Workgroup discussions, a proper legal assessment would be required for further clarity on aspects of the solution. Workgroup member also requested a legal view on the following:

- How ETR data is considered to be different to the REMIT data under EU legislation, acknowledging the implementation of (P291: REMIT inside information reporting platform and GB Electricity, [P295](#): Submission and publication of transparency regulation data via the BMRS and [GC0083](#): European transparency regulation implementation), and questioned if compliancy would still be met under the proposed solution for GC0174.

Public

Timeline and Terms of Reference

The Workgroup agreed with the timeline and Terms of Reference.

Next Steps

The next Workgroup is scheduled for 11 December 2024.
