Standard Workgroup Consultation questions		
1	Do you believe that the Original Proposal better facilitates the Applicable Objectives?	Mark the Objectives which you believe the Original solution better facilitates:
		Original <input checked="" type="checkbox"/> A <input checked="" type="checkbox"/> B <input type="checkbox"/> C <input checked="" type="checkbox"/> D
	Yes	
2	Do you support the proposed implementation approach? (See page- 57-58)	<input type="checkbox"/> Yes
		<input checked="" type="checkbox"/> No
	For such a significant change we are concerned with the lack of an impact assessment, short timescales for consultation and the possibilities for unintended consequences. We also believe that the key interface management requirements with DNOs have not been adequately developed or tested.	
3	Do you have any other comments?	
		We are members of Renewable UK and have supported development of their response which includes much more detail than ours. We support the Renewable UK response except where we have commented here.
4	Do you wish to raise a Workgroup Consultation Alternative Request for the Workgroup to consider?	<input type="checkbox"/> Yes (the request form can be found in the <a href="#">Workgroup Consultation Section</a> )
		<input type="checkbox"/> No

Specific Workgroup Consultation questions	
5	<p>Do you agree with the elements of the proposed solution for CMP435? <i>Please note that the application of these elements may be different to <a href="#">CMP434</a>, therefore please answer the questions in respect to CMP435.</i></p> <p>Elements 2,4,6,7,12,15,17 and 18 are not part of the CMP435 Proposal and is only part of the <a href="#">CMP434</a> Proposal. Element 10 is proposed to be codified within the STC through modification <a href="#">CM095</a>.</p>

Please provide rationale for your answer and any suggestions for improvement to each element?	
<b>Element 1:</b> Proposed Authority approved methodologies and ESO guidance (see Page 8-10,29)	<input type="checkbox"/> Yes <input type="checkbox"/> No

<b>Element 3:</b> Clarifying which projects go through the Primary Process (See pages 10-11,29-31)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
We believe that the key interface management requirements with DNOs have not been adequately developed or tested. This could lead to distribution connection projects being differently and possibly unfairly treated.	
<b>Element 5:</b> Clarifying any Primary Process differences for customer groups (See pages 11-12,32)	<input type="checkbox"/> Yes <input type="checkbox"/> No

We generally support this element. It is key that the gate 2 requirements are robust enough to pass only projects that are more likely to progress and therefore achieve the objectives of the change.
