**For reference, the Applicable CUSC (non-charging) Objectives are:**

- a) *The efficient discharge by the Licensee of the obligations imposed on it by the Act and the Transmission Licence;*
- b) *Facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the sale, distribution and purchase of electricity;*
- c) *Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency \*; and*
- d) *Promoting efficiency in the implementation and administration of the CUSC arrangements.*

*\*The Electricity Regulation referred to in objective (c) is Regulation (EU) 2019/943 of the European Parliament and of the Council of 5 June 2019 on the internal market for electricity (recast) as it has effect immediately before IP completion day as read with the modifications set out in the SI 2020/1006.*

Standard Code Administrator Consultation questions											
1	<p>Please provide your assessment for the proposed solution(s) against the Applicable Objectives?</p>										
	<p>Mark the Objectives which you believe the proposed solution(s) better facilitates:</p>

	<p><b><u>Land Rights Checks</u></b></p> <p>Ability to successfully filter 'Gate 2' viable projects is <i>hugely dependent on the quality of land rights checks</i>. Simple '<b>duplication checks</b>' are insufficient. Original Proposal only works if land rights are properly checked – add duplication checks on 100% of applicants to a % of checks using all relevant public records, including Land Registry, and also add a small % of checks contacting LOs and checks for forgeries.</p> <p>Gate 2 Criteria guidance (November 2024) only says “we may also utilise [public record]” at 8.13 – this is too weak.</p> <p>Element 11 of CMP434 (this part we understand will equally apply to <i>Gate 2 to whole queue</i>) suggests that land rights acreage is only checked at each queue management milestone – this is insufficient to effectively manage the queue, there must as a bare minimum be an annual check.</p> <p>We collectively refer to these improvements as 'thorough land rights checks'. We have scored question 1 on the <i>assumption that thorough land rights checks will be undertaken</i>.</p>

		<p>Planning milestones come too late to be useful in terms of efficient batching for gate 2 offers.</p> <p><b><u>TEC split</u></b></p> <p>As part of the one-off exercise <i>Gate 2 to whole queue</i>, recommend that Users can split TEC into Gate 2 and Gate 1 stages, in order to best rationalise the queue. This would require a tweak to the proposed clause 18.8.1.</p>
