Code Administrator Meeting Summary

GC0168 Submission of Electro Magnetic Transient (EMT) Models (Workgroup 4)

Date: 17/12/2024

Contact Details

Chair: Sarah Williams (NESO) sarah.williams@nationalenergyso.com

Proposer : Frank Kasibante (NESO) frank.kasibante1@nationalenergyso.com

Key areas of discussion

Open Actions

The proposer shared updates to action 15 and 16 raised at Workgroup 3, and it was agreed that they both could be closed.

Legal Text Review

The changes agreed during Workgroup 3 were shared with the group, the Proposer highlighted the amendments and Workgroup members were in agreement.

A number of further amendments were agreed to be updated by the Proposer, these will be completed and the Legal Text shared with members for completion.

A Workgroup member who was unable to attend submitted comments during Workgroup 4 and the Proposer along with the members reviewed them during the session. Whilst discussing the members' point in relation to PC.A.9.7.3, requirements of the validation report, it was agreed that the Proposer would take this away and clarify the requirements and update members at the next Workgroup meeting. **Action 17**

Workgroup Consultation Discussion

As members received the Workgroup Consultation at short notice, with little time to review it, a short break of 20 mins was suggested, giving members a chance to raise any points in the document they felt needed amending.

After the break the Chair talked through the document taking comments from Workgroup members, these were added into the document to be reviewed and amended as necessary.

A member highlighted that a vast number of Grid Code definitions had been mentioned in the document but not all had not been capitalised, which was necessary. An action was taken to address this issue. **Action 18**

Public

Members agreed that the Workgroup Consultation should be delayed slightly to allow all questions to be answered and ensure the consultation was as detailed as possible before being issued.

The Chair and Proposer agreed to update the timeline and share the amended details with the Workgroup.

Timeline

Timeline to be amended to delay the Workgroup Consultation slightly and change some of the Workgroup dates. This will be shared with Workgroup members when completed.

Terms of Reference

The Workgroup reviewed the Terms of Reference to ensure all key points had been considered. It was agreed that the Workgroup Consultation would be updated with all the necessary discussion.

Next Steps

The Workgroup agreed to move the Workgroup Consultation date and have a further Workgroup meeting to ensure the Consultation document is completed fully.
