Code Administrator Consultation Response Proforma

GC0164: Simplification of Operating Code No.2

Industry parties are invited to respond to this consultation expressing their views and supplying the rationale for those views, particularly in respect of any specific questions detailed below.

Please send your responses to grid.code@nationalenergygo.com by **5pm GMT on 16 January 2025**. Please note that any responses received after the deadline or sent to a different email address may not receive due consideration.

If you have any queries on the content of this consultation, please contact grid.code@nationalenergygo.com

Respondent details	Please enter your details	
Respondent name:	Frank Kasibante	
Company name:	NESO	
Email address:	frank.kasibante1@nationalenergygo.com	
Phone number:	07812 774066	
Which best describes your organisation?	<input type="checkbox"/> Consumer body <input type="checkbox"/> Demand <input type="checkbox"/> Distribution Network Operator <input type="checkbox"/> Generator <input type="checkbox"/> Industry body <input type="checkbox"/> Interconnector	<input type="checkbox"/> Storage <input type="checkbox"/> Supplier <input checked="" type="checkbox"/> System Operator <input type="checkbox"/> Transmission Owner <input type="checkbox"/> Virtual Lead Party <input type="checkbox"/> Other

I wish my response to be:

(Please mark the relevant box)

☒ **Non-Confidential** (*this will be shared with industry and the Panel for further consideration*)

☐ **Confidential** (*this will be disclosed to the Authority in full but, unless specified, will not be shared with the Panel or the industry for further consideration*)

Public

For reference the Applicable Grid Code Objectives are:

- a) *To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity*
- b) *Facilitating effective competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);*
- c) *Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole.*
- d) *To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and*
- e) *To promote efficiency in the implementation and administration of the Grid Code arrangements*

Please express your views in the right-hand side of the table below, including your rationale.

Standard Code Administrator Consultation questions				
1	Please provide your assessment for the proposed solution(s) against the Applicable Objectives?	<p>Mark the Objectives which you believe the proposed solution(s) better facilitates:</p> <table border="1"> <tr> <td>Original</td> <td><input checked="" type="checkbox"/>A <input type="checkbox"/>B <input checked="" type="checkbox"/>C <input type="checkbox"/>D <input checked="" type="checkbox"/>E</td> </tr> </table> <p>We agree that the proposal better facilitates Grid Code Objectives A, C and E on the basis that this modification seeks to simplify and rationalise the Grid Code drafting in respect of OC2 and we also understand this approach will be applied to other sections of the Grid Code.</p> <p>We understand that the aim of the modification is to use plain English, reduce duplication, aid navigation and improve the Grid Code for end Users. In this respect, we see the Grid Code becoming more efficient and therefore are of the opinion that this proposal is positive in respect of Grid Code objectives A, C and E.</p>	Original	<input checked="" type="checkbox"/> A <input type="checkbox"/> B <input checked="" type="checkbox"/> C <input type="checkbox"/> D <input checked="" type="checkbox"/> E
Original	<input checked="" type="checkbox"/> A <input type="checkbox"/> B <input checked="" type="checkbox"/> C <input type="checkbox"/> D <input checked="" type="checkbox"/> E			
2	Do you have a preferred proposed solution?	<p><input checked="" type="checkbox"/>Original</p> <p><input type="checkbox"/>Baseline</p> <p><input type="checkbox"/>No preference</p>

		Click or tap here to enter text.
3	Do you support the proposed implementation approach?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No We support the revised text with the additional use of flow diagrams which we believe will reduce the time required for navigation.
4	Do you have any other comments?	Simplifying and rationalising OC2 of the Grid Code indicates that if codes are written and structured with the user in mind, with due regard to accessible language, the use of flow diagrams and are principle based, ease of access can be improved for the end User. This work ensured that the proposed text did not change any of the existing obligations but has also highlighted the significant challenge that some stakeholders prefer absolute legal certainty of drafting while others prefer ease of assimilation. A comprehensive definitions review could be needed to aid code simplification.
5	Do you agree with the Workgroup's assessment that the modification does not impact the Electricity Balancing Regulation (EBR) Article 18 terms and conditions held within the Grid Code?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No Click or tap here to enter text.
