Headline Report March 2025

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Workgroup Report

The following Workgroup Report was presented to the Panel:

CMP444: Introducing a cap and floor to wider generation TNUoS charges

This modification seeks to introduce a temporary cap and floor mechanism to wider generation TNUoS (Transmission Network Use of System) charges, to reduce investment uncertainty for generators and developers.

The Panel was presented with some non-material amendments to the CMP444 legal text. The Panel agreed that the changes were non-material and agreed that the CMP444 Workgroup should have visibility of these changes prior to the Code Administrator Consultation being issued.

The Panel unanimously agreed that the Workgroup has met its Terms of Reference and can proceed to Code Administrator Consultation. The Code Administrator Consultation will open 10 March – 14 March 2025.

CMP444 documentation can be found [here](#).

In Flight Modifications Update

CMP448: Introducing a Progression Commitment Fe to the Gate 2 Connections Queue

The Panel approved the amended and additional Terms of Reference for the CMP448 Workgroup.
