Headline Report March 2025

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Workgroup Report

The following Workgroup Report was presented to the Panel:

CMP446: Increasing the lower threshold in England and Wales for Evaluation of Transmission Impact Assessment (TIA)

The current connections process can be improved to facilitate the timely connection of distribution projects that have minimal impact on the Transmission Network to help meet net zero and Clean Power 2030. This proposal raises the lower threshold at which an Evaluation of Transmission Impact Assessment (TIA) must be undertaken.

The Panel unanimously agreed that the Workgroup has met its Terms of Reference and can proceed to Code Administrator Consultation. The Code Administrator Consultation will open 10 March – 17 March 2025.

CMP446 documentation can be found [here](#).

In Flight Modifications Update

CMP316: TNUoS Arrangements for Co-located Generation Sites

The Panel agreed that a Workgroup should be re- convened to address the send- back deficiencies and agreed the timeline and Terms of Reference for the CMP316 Workgroup.

Key Activities ahead of next panel
