

STOR OCP-06

Nicholas Blair, Balancing Services Senior Account Manager

OCP-06

Introduction

- OCP-06 published on 26 September 2014

- Consulting on two amendments to SCTs
 - EMR Data Consent Requirement
 - Facilitating Participation – Frequency Response
 - Plus Tender Round Dates

- Informal feedback can be communicated on the A2 sheets around the room

OCP-06

EMR Data Consent

- **Summary:** EMR Regulations require a new clause relating to data consent. This will be automatically included for balancing service providers who are or become CUSC parties, and for non-CUSC parties their agreements will be automatically amended to include a clause granting data consent.
- **Concern:** All balancing service providers need to comply with the requirement.
- **Proposed solution:** SCT amendment to include Section 4.17 [full clause given in OCP-06 document, and on hand outs].

OCP-06

Facilitating Participation – Frequency Response

- **Summary:** Certain STOR providers are able to deliver faster response times than their contracts specify. Faster response times would be of value to Frequency Response services and we are keen to improve participation in these markets.
- **Concern:** Parties contracted for STOR are not able to participate in other balancing services.
- **Proposed solution:** Amendment to SCTs to allow suspension of STOR contracts, for a period of 12 months, if successful in a contract to provide Frequency Response.
