30 October 2014

Issue 2

On the 3rd November 2014 the below contract will be suspended. This is due to the success of Peterhead Power Station in the recent Supplemental Balancing Reserve (SBR) tender. For more information regarding SBR please visit the tender documentation page at the following link:

<http://www2.nationalgrid.com/UK/Services/Balancing-services/System-security/Contingency-balancing-reserve/SBR-Tender-Documentation/>

Dear Service Provider

Transmission Constraint Management: Confirmation of contract

The following Transmission Constraint Management Requirement led National Grid Electricity Transmission (**NGET**) to seek to manage forecast voltage and system issues, through a constraint management contract.

Constraint Requirement

Requirement Location : TYS Zones 1&2

Constraint Duration:

Contract Summary:

Start Time	End time	Type
00:00 21/04/14	24:00 20/04/15	Voltage / Stability

Capped Output	Minimum Output
N/A	480 MW – 780 MW (On instruction)

To meet the requirement, services offered by Scottish and Southern Electricity on behalf of Peterhead Power Station were accepted as summarised above

Yours faithfully

Sarah Hall
