

CMP268 'Recognition of sharing by Conventional Carbon plant of Not-Shared Year-Round circuits'

CUSC Panel – 25 August 2017
Heena Chauhan

Background

- CMP268 was raised by SSE and was submitted to the CUSC Modifications Panel for their consideration on the 27 July 2016.
- CMP268 aims to change the charging methodology to more appropriately recognise that the different types of “Conventional” generation pays. The change to the charging methodology would take the form that for generators which are classed as Conventional Carbon, the generator’s ALF should be applied to both its Not-Shared Year-Round as well as its Shared Year-Round tariff elements.
- The Authority sent back this modification on the 2 December 2016, it was then sent to the Workgroup to carry out the analysis required as directed by the Authority
- The revised FMR was submitted to the Authority on 4 July 2017

Authority Direction

- The Authority sent their second send back decision on 14 August 2017 and directed that:
 - Three areas outlined within the letter but directed that a ‘thorough review to be carried out on the effectiveness of the legal text and appropriate corrections made, as well as the entire FMR before it is resubmitted’
- Noting that the direction within the original send back letter had been fulfilled:
 - ‘We are pleased to inform you that we consider that these requirements to have been fulfilled, and note that further analysis and assessment of the impacts has been carried out and properly included in the FMR’

Code Administration Consultation

Following Send back

- Three responses received
 - One confidential response received.
 - This has not been included within the report and will be sent separately to the Authority
 - Two responses supported and confirmed that the legal text revision supported the intent of the proposal

Next Steps

CMP268 Progression following send back

- The Panel is asked to confirm:
 - Whether their recommendation vote remains unchanged following the second send back
 - Timescales for resubmission of the FMR to the Authority

Timetable

17 August 2017	Send back letter discussed at CUSC Panel meeting
17 August 2017	Code Administrator Consultation issued (4.5 working days)
24 August 2017	Draft FMR issued to Panel and Industry
25 August 2017	CUSC Panel look at responses and confirm recommendation vote
1 September 2017	Resubmission of FMR to the Authority
